

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay an unfair price for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Currently I make less than one long-distance call per month from my home phone, and only 5 to 10 minutes per month from my [TracFone] cellphone. Under the flat fee proposal you are considering, I would pay as much as a person or business using the long-distance lines 100 to 1000 (or more) times as much. This is grossly unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Jayne Knoche
